REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

Blackville-Hilda High School is educating students who are competent, responsible individuals with the unlimited capacity to ascertain and meet the challenges of today's high-tech, data driven society. We are achieving this goal by teaching at higher levels through structured, relevant, and challenging academic experiences.

During the 2011-2012 school year, Blackville-Hilda high School was in its third year of the High Schools That Work Initiative, and we continued the development of a rigorous academic and career/technical program of study while expanding the culture of high expectations for all students. Some of the ways we accomplished this included: utilizing data to drive instruction, curriculum and assessment, restructuring the Advisement period to focus on student's most critical areas of academic need, and the use of the leadership/focus teams to assist with the curriculum and instructional practices necessary to advance student growth.

The Freshman Academy was successfully implemented in 2009 and has been sustained to assist in the successful transition of students into high school for their first year. Through this initiative additional materials, technology and support were provided to enhance and supplement instruction while increasing student exposure to content material.

Among the many accomplishments during the 2011-2012 for Blackville-Hilda High School, I am proud to list the following: Palmetto Gold Award, 83% first time passing on HSAP Mathematics, 78% first time passing on HSAP ELA and 1 million dollars in scholarships for the Class of 2012. Although we are making great strides, BHHS continues to have challenges and opportunities in seemingly equal measure. However, the administration, staff, and students – with the aid of the district office, community and all other stakeholders – will take full advantage of every opportunity and exceed the challenges so that our students will seek "Excellence by Choice, not by Chance."
